

SANATANI SWASTHYA SENA

॥ स्वास्थ्य समाज, सशक्त राष्ट्र ॥

PRESS RELEASE

VANDE MATARAM - FULL VERSION MASS SINGING

at Dhakuria Bridge, Kolkata - 700029 | 2 PM on 28.08.2026 (Friday) - Rakhi Purnima

Organised by SANATANI SWASTHYA SENA (SSS)

Friends, Welcome to the occasion of Rakhi Celebration and Nation Building Exercise.

Recently, we have observed apathy and an objectionable attitude from certain political parties towards singing the full version of the Vande Mataram song written by Shree Bankim Chandra Chattopadhyay. We are assembling here to encourage and strengthen people's minds to sing fearlessly and recite the song poetically. This initiative will spread brotherhood and "Desh Prem". The assembly will be peaceful and will be a recurring event in the years to come. SSS is a trust dedicated to health-oriented philanthropy.

About Sanatani Swasthya Sena (3S)

The primary aim of Sanatani Swasthya Sena (3S) is to bring pure RSS and BJP-minded Health Care Personnel under one roof to help build a Healthy, Resilient, and Empowered Nation by ensuring – Accessible and Preventive Healthcare, Health Awareness, and Compassionate Social Care Service for every individual. Ancient India has gifted the best healthcare and its pioneers to the world, which we need to revive again in India. This aim is rooted in the timeless philosophy of SEVA (selfless service) of the Sanatanis, "Seva hi Param Dharma" and executed with strict adherence to dignity, integrity, and quality with absolute commitment. This led us to create this platform under the leadership of eminent Interventional Cardiologist, Dr. P. K. Hazra.

The Foundational Pillars of Our Aim are:

- 1. Accessible, Affordable, Dignified and Quality Healthcare:** Quality healthcare must not be a privilege dictated by geography or financial standing, but for ALL.
- 2. Equitable Care:** Breaking down economic and physical barriers to ensure high-quality medical care services reach urban slums and remote rural pockets alike.
- 3. Preserving Dignity:** Treating every patient with utmost respect, care, empathy, and professional integrity, ensuring that care is delivered as a matter of right, not charity.
- 4. Advanced Preventive Healthcare Awareness:** The most effective way to heal a nation is to prevent illness and morbidities before they strike. This benefits the nation financially.
- 5. Institutional Education:** Launching grassroots workshops and digital awareness campaigns from schools to counter health misinformation and promote scientifically proven healthy lifestyle habits.
- 6. Environmental Health:** Promoting clean surroundings, proper sanitation, and community-led herbal initiatives to establish a clean, healthy and supportive ecosystem.
- 7. Mobile Health Infrastructure:** Deploying specialized health camps, diagnostics, and mobile medical vans directly to remote, underserved terrains.

SANATANI SWASTHYA SENA

॥ स्वास्थ्य समाज, सशक्त राष्ट्र ॥

8. The Ultimate Vision – A Healthier, Stronger Society: By merging professional medical expertise with the operational strength of local volunteers, Sanatani Swasthya Sena aims to create a self-sustaining ecosystem of healthcare.

We believe physical and mental health is the foundational bedrock of a strong society. When individuals are healthy, families prosper, communities thrive, and the nation grows structurally and socially unbreakable.
